

Series BG600

foam frame shelter

BLUE GIANT®

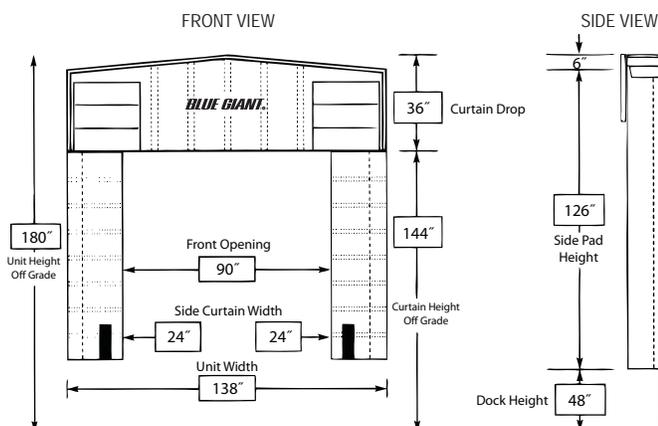

Generally designed for 10'x10' (3048 mm x 3048mm) door openings, the BG600 series foam frame shelter enables unrestricted access to a truck interior, making it an ideal solution for tailgate or standard trailers.

Benefits

- SAVE hundreds of dollars in reduced energy costs
- IMPROVE working conditions by keeping dust, dirt, debris and insects out
- PROTECT product and personnel from harsh weather conditions
- INCREASE productivity by providing a safe and comfortable working environment
- DURABLE range of Hi-Performance fabrics to choose from
- CUSTOM sizes available

Standard Size Specifications

Generally designed for but not limited to 10' wide x 10' high (3048 x 3048mm) openings.

The BG600 series is ideal for tailgate or standard trailers. The design of this unit allows the trailer to pass through the side and top curtains allowing full unrestricted access to the rear of the trailer when loading and unloading.

With no mechanical or adjustable parts, this unit is designed to prevent many of the problems that arise from conventional seals and shelters. With foam side frames and removable side curtains, this unit is ideal for virtually every application.

Blue Giant offers a wide variety of custom shelters to satisfy your dock requirements.

Full Access

The D600 unit is designed to allow full unrestricted access to the rear of the trailer preventing premature wear and tear caused by loading and unloading product.

Foam Frame

The foam frame vertical pads of the D600 shelter resist damage caused by off-centre trailer impact and returns to original form.

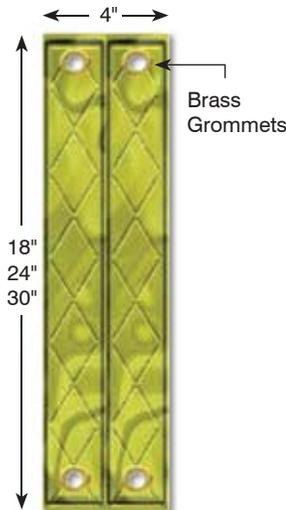

Removable Side Curtains

The side curtains can be easily removed to allow air flow into the building during warmer months and increase the life of the unit.

Protect Your Investment

With Blue Giant's "Reflective Guides" designed to ensure accurate truck placement.

This maintenance free product safely guides trailers to the docking position in poor visibility and low light level situations thereby reducing possible damage to product and dock area.

Fabric and Colour Selection

Blue Giant can customize your dock seal with the ideal fabric for your application from a wide range of colours and fabrics available.
